

At SIS-LPEBL KT, we wish to give equal access to all pupils. The building's contingencies (listed building) impose strict conditions regarding the modifications of the lay-out. This accessibility plan has been drawn in order to plan for the maximum accessibility depending on the circumstances encountered by children and their families and by staff.

## Aims

To increase the extent to which disabled pupils can participate in the curriculum

To improve the physical environment of the school to enable disabled pupils to take better advantage of education, benefits, facilities and services provided

To improve the delivery to disabled pupils of information which is readily accessible to pupils who are not disabled.

To enable all employees to fulfil their professional mission whatever their temporary physical incapacity may be.

## Plan

Should one pupil or teacher find himself/herself in a disabled state (crutches or wheelchair), SIS LPEBL KT will ensure that lessons take place on the ground floor, in the "Russian" classroom where a whiteboard and toilets are easily accessible.

Should a child or teacher at SIS LPEBL KT have a visual or hearing impairment, the school will effect special measures to ensure that the persons concerned have an enabling environment in which they have the same access to as others.

Access to the "Russian classroom" shall be made by the school entrance door, on the right hand side of the building when facing it, as this entrance is equipped with a small ramp.
